WHAT THE GENERAL SAID!

A noted General being asked by some of his friends how he liked Texas replied "If I was obliged to choose between Hell and Texas I would choose the former." The above saying is verified every day by parties moving from the North, East and South, and as they cannot decide exactly as to the existence of the former, they certainly avoid Texas, and like sensible, industrious people seek a productive country, such as Missouri, Kansas, Colorado, Nebraska and the Far West. Readers, are you contemplating a trip to such a country on business or pleasure? If so, select the line having the least change of cars and best accommodations. The Old Reliable Hannibal & St. Joseph R. R. (the Pioneer line west of the Mississippi River) offers you through Day Coaches and Pullman Palace Sleeping Cars from Chicago, Ills., Toledo, Ohio, and Indianapolis, Indiana, to the Missouri River without change. Tourist and land seekers' round trip excursion tickets on sale by this popular route at all Eastern Ticket Offices. For maps, time table and description of country and route, or any other information about the West, call on or address,

"ECZEMA PILES."—I was a great sufferer from Eczema Piles, the latter being so severe as almost to incapacitate me, particularly at night, when undressing, or after getting warm in bed. I tried prescriptions almost innumerable without finding any permanent relief, until I used "Swayne's All-healing Ointment," which has made a perfect cure. Joseph W. Christ, firm of Roedel & Christ, boot and shoe house, 346 North Second street, Philadelphia. Reader, if you are suffering with this distressing complaint, or any scaly, crusty skin disease, tetter, &c., use "Swayne's Ointment" and be cured. Fifty cents a box. The Crops and the Railroads.

American Exchange.

The latest reports from the Northwest confirm all that we have heretofore published respecting the condition of the Spring wheat in that section of the country. In some cases the crop has been so seriously injured by the storms, rust and blight, that it will not pay the expense of harvesting, while the average of the Spring wheat will not exceed half a crop of inferior quality. Our correspondent, writing from Winona, Minn., under date of August 2, states: "The result of my observations in the Spring wheat country is that the northern half of the State of Iowa and at least the two southern tiers of counties in this State will not yield a general average to exceed eight bushels per acre, and that along the central part of the belt, which, by the way, is mostly tributary to the Milwaukee and St. Paul Railroad, the damage done is the greatest. The area in the State of Iowa I have not as yet obtained to my satisfaction but I think it will approximate 33 per cent over last year. As I have frequently telegraphed and written barley is in very much diminished area, and what there is, is of poor quality. Oats will average a full area, but will have a light berry, and will be of inferior quality to that of last year, being badly lodged and having ripened too suddenly on account of the excessive heat. Corn, although of very fine growth in Western Missouri, Western Iowa and in Kansas and Nebraska, is, notwithstanding a rather thin stand on a contracted area, and being so largely short, or rather damaged by the wet spring in the great corn counties of Illinois, it cannot be more than three quarters of a crop under the most favorable influences of a favorable autumn. The general condition, is, however, backward, and early frosts must be taken in consideration.

It is not probable, however, that the damage done to the spring wheat will have any serious effect upon the price of wheat at the leading markets of the country during the current year, because an unusually large crop of winter wheat has already been harvested in Ohio, Indiana, Illinois, Missouri, Kansas, and portions of Michigan, and, as published elsewhere, the California crop exceeds anything heretofore produced in that State. While the railroads commonly known as "Granger roads" must necessarily be affected by the serious damage done in the Northwest, the traffic in other portions of the country will necessarily be very heavy. The receipts of wheat at Toledo yesterday were 100,000 bushels, and at Detroit 110,000 bushels, while in New York they aggregate 371,611 bushels, and the total receipts of grain at this port were nearly 3,000,000 bushels.

CLEAR THE WAY

For the escape from the system of its waste and debris, which, if retained, would vitiate the bodily fluids and overthrow health. That important channel of exit, the bowels, may be kept permanently free from obstructions by using the non-griping, gently acting and agreeable cathartic, Hostetter's Stomach Bitters, which not only liberates impurities but invigorates the lining of the intestinal canal when weakened by constipation or the unwise use of violent purgatives. The stomach, liver and urinary organs are likewise reinforced and aroused to healthful action by this benevolent tonic and corrective, and every organ, fiber, muscle and nerve experiences a share of its invigorating influence. Unobjectionable in flavor, a most genial and wholesome medicinal stimulant, and owing its efficacy to botanic sources exclusively, it is the remedy best adapted to household use on account of its safety, wide scope and speedy action.

August 5—wd&wtw

Clifford's Febrifuge. In the cure of Fever and Ague this remedy displays extraordinary powers. Properly used, no case can resist it, and other diseases of an intermittent character, including that most distressing one, the *paroxysm of Ague*, have been found to yield with equal certainty to its influence. Herbal it rates all malaria from the system, gives tone and vigor to the whole body, and prevents its return from becoming seated. By Druggists. Fenner. It is sure, safe and speedy in its action. You will never regret buying the first bottle, and you will have discovered a friend you cannot afford to lose.

CATARRH

Sneezing Catarrh, Chronic Catarrh, Ulcerative Catarrh, permanently cured by

SANFORD'S RADICAL CURE.

SANFORD'S RADICAL CURE FOR CATARRH is safe, certain and permanent cure for Catarrh of every form and is the most perfect remedy ever devised. It is purely a vegetable distillation and is applied locally by insufflation, and constitutionally by internal administration. Locally applied, it *Pacifies instantaneously*. It soothes, heals, and cleanses the nasal passages of every feeling of bruising obstruction, dullness, or dizziness. Constitutionally administered it renovates the blood purifies it of the said poison with which it is always charged in Catarrh, invigorates the stomach, improves the digestion, perfects digestion, makes new blood, and provides the formation of sound, healthy tissue, and finally obtains complete control over the disease. The remarkable curative powers, when all other remedies utterly fail, of SANFORD'S RADICAL CURE are attested by thousands who gratefully recommend it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references. It is a pure and good medicine, and worthy all confidence. Each package contains a Patent Nasal Syringe and Full Directions for its use in all cases. Price $1.

WHAT THE GENERAL SAID!

A noted General being asked by some of his friends how he liked Texas replied "If I was obliged to choose between Hell and Texas I would choose the former." The above saying is verified every day by parties moving from the North, East and South, and as they cannot decide exactly as to the existence of the former, they certainly avoid Texas, and like sensible, industrious people, seek a productive country, such as Minnesota, Kansas, Colorado, Nebraska and the Far West. Reader, are you contemplating a trip to such a country on business or pleasure? If so, direct the line having the least change of cars and best accommodations. The Old Reliable Hannibal & St. Joseph R. R. (the Pioneer line west of the Mississippi River) offers you through Day Coaches and Pullman Palace Sleeping Cars from Chicago, Ills., Toledo, Ohio, and Indianapolis, Indiana, to the Missouri River without change. Tourist and land seekers' round trip excursion tickets on sale by this popular route at all Eastern Ticket Offices. The Crops and the Railroads.

American Exchange:

The latest reports from the Northwest confirm all that we have heretofore published respecting the condition of the Spring wheat in that section of the country. In some cases the crop has been so seriously injured by the storms, rust and blight, that it will not pay the expense of harvesting, while the average of the Spring wheat will not exceed half a crop of inferior quality. Our correspondent, writing from Winona, Minn., under date of August 2, states: "The result of my observations in the Spring wheat country is that the northern half of the State of Iowa and at least the two southern tiers of counties in this State will not yield a general average to exceed eight bushels per acre, and that along the central part of the belt, which, by the way, is mostly tributary to the Milwaukee and St. Paul Railroad, the damage done is the greatest. The area in the State of Iowa I have not as yet obtained to my satisfaction but I think it will approximate 33 per cent over last year. As I have frequently telegraphed and written, barley is in very much diminished area, and what there is, is of poor quality. Oats will average a full area, but will have a light berry, and will be of inferior quality to that of last year, being badly lodged and having ripened too suddenly on account of the excessive heat. Corn, although of very fine growth in Western Missouri, Western Iowa and in Kansas and Nebraska, is, notwithstanding a rather thin stand on a contracted area, and being so largely short, or rather damaged by the wet spring in the great corn counties of Illinois, it cannot be more than three quarters of a crop under the most favorable influences of a favorable autumn. The general condition, is, however, backward, and early frosts must be taken in consideration."

It is not probable, however, that the damage done to the spring wheat will have any serious effect upon the price of wheat at the leading markets of the country during the current year because an unusually large crop of winter wheat has already been harvested in Ohio, Indiana, Illinois, Missouri, Kansas, and portions of Michigan, and, as published elsewhere, the California crop exceeds anything heretofore produced in that State. While the railroads commonly known as "Granger roads" must necessarily be affected by the serious damage done in the Northwest, the traffic in other portions of the country will necessarily be very heavy. The receipts of wheat at Toledo yesterday were 100,000 bushels, and at Detroit 110,000 bushels, while in New York they aggregate 371,611 bushels, and the total receipts of grain at this port were nearly 3,000,000 bushels.

CLEAR THE WAY

For the escape from the system of its waste and debris, which, if retained, would vitiate the bodily fluids and overthrow health. That important channel of exit, the bowels, may be kept permanently free from obstructions by using the non-gripping, gently acting and agreeable cathartic Hostetter's Stomach Bitters, which not only liberates impurities but invigorates the lining of the intestinal canal, which weakened by constipation or the unwise use of violent purgatives. The stomach, liver and urinary organs are likewise reinforced and aroused to healthful action by this beneficent tonic and corrective, and every organ, from muscle and nerve, experiences a share of its invigorating influence. Unobjectionable in flavor, a most genial and wholesome medicinal stimulant, and owing its efficacy to botanic sources exclusively, it is the remedy best adapted to household use on account of its safety, wide scope and speedy action.

Clifford's Febrifuge. In the cure of Fever and Ague this remedy displays extraordinary powers. Properly used, no case can resist it, and other diseases of an intermittent character, including that most distressing one, the *periodical headache*, have been found to yield with equal certainty to its influence. It regulates all motions from the system, gives tone and vigor to the whole body, and prevents sickness from becoming seated. Try Clifford's Febrifuge. It is safe and speedy in its action. You will never regret buying the first bottle, and you will have discovered a friend you cannot afford to lose.

CATARRH
Sneezing Catarrh, Chronic Catarrh, Ulcerative Catarrh, permanently cured by
SANFORD'S RADICAL CURE.

Sanford's Radical Cure for Catarrh is a safe, certain and permanent cure for Catarrh of every form and is the most perfect remedy ever devised. It is purely a vegetable distillation and is applied locally by insufflation, and constitutionally by internal administration. Locally applied, it stops offensiveness. It soothes, heals, and cleanses the nasal passages of every scaling of heavy or obstruction, dulness, or dizziness. Constitutionally administered it renovates the blood, purifies it of the acid poison with which it is always charged in Catarrh, invigorates the stomach, improves digestion, makes new blood, and promotes the formation of sound, healthy tissue, and finally obtains complete control over the disease. The remarkable curative powers, when all other remedies utterly fail, of Sanford's Radical Cure are attested by thousands who gratefully recommend it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references. It is sold at a good medicine, and warranty all concerned. Each package contains a Treatise on Catarrh and Dr. Sanford's Improved Inhaling Apparatus and full directions for its use in all cases. Price $1.

THE PROHIBITIONISTS.

The Prohibition party held a district convention at Clinton yesterday, and nominated J. F. Harrold, of DeWitt, for senator, and Elder N. S. Haynes, of this city, for representative. Of Mr. Harrold it is only necessary to say that he has served a four years' term in the Senate without even being heard of except at roll call. He was as perfect a nonentity as ever sat in a legislative body, and four years of experience were not sufficient to make anything of him that could be of service to his constituents.

Elder Haynes is an active, energetic young man, of fine ability, and a good speaker. If elected—which there is no good reason to expect—he would make a useful member.

SECRETARY GORHAM ON THE PROSPECT.

Secretary Gorham, of the National Republican Congressional Committee, stated in an interview last Monday that his hopes in regard to Republican success have risen one hundred per cent within the last five days, and from information received from all directions, he believed there will be a Republican majority in the next House. He says all the doubtful districts are in the most favorable condition. The Democrats are making unpopular nominations and the Republicans are making good ones, and if the canvas continues as it has commenced, there will be a change of thirty votes in the present House. The committee will issue in a few days a campaign text book on finance for the use of political writers and speakers that will contain a record of the Republican party on finance and other valuable information.

That there is a *strong connection* between honest politics and the public health is shown by a Washington dispatch, in which attention is called to the fact that "yellow fever has not raged so furiously in New Orleans as at present since General Butler occupied and cleansed the city, except in 1867, under Democratic administration. When the Republicans have been in power there the city has been kept clean and free from epidemics."

Mr Barnum tells a Cleveland *Herald* reporter that he pays his best rider $700 a week, the leading equestrienne $300, pad riders from $400 to $125, acrobats and gymnasts from $60 to $100, clowns from $150 to $175. Of his advertising expenses he says "My printing this season has already cost me $13,000, but my newspaper bills in a season amount to a great deal more. My expenses on my trip three years ago amounted to $650,000, and in that year in six months the profits were $60,000."

For a few days past the Sangamon County Circuit Court has been engaged upon a case involving the question whether in a city a fireman is a municipal officer or not. The suit was brought by an ex fireman in Springfield against the city, for the recovery of a month's salary, which he claimed was due him. The court decided in favor of the fireman, regarding the plaintiff in no sense a city officer, but simply an employe of the city council, in like manner as a janitor, and subject to its control, through the committee on fire and water. The Mayor is a member of that committee, and his attempt to remove the plaintiff is regarded as a report by the committee in favor of his dismissal, which the council, as the judge holds, concurred in by consenting to the employment of another man in place of the plaintiff. This action of the council, the court decides, is equivalent to discharging its employe.

THE SOUNDEST KIND OF SENSE.

The following from the Troy (N. Y.) *Times* was written for the latitude of that state, but it applies with equal force to Illinois.

The first duty of honest, earnest Republicans, now, is unity of action and purpose. It is not to discuss this or that man's claim to the Senatorship in the event of success this fall. After the Legislature shall have been secured, it will be time enough for the enemies of Mr. Conkling to show wherein he has fallen short of a faithful discharge of the great trust with which the state of New York commissioned him, and for his friends to prove, if necessary, how ably and honestly and well he has borne aloft the standard and name of the Empire State in the highest legislative body of the world. The Republican party cannot succeed if there are discord and distrust in the organization of that party, and if each movement that is made in the progress of the campaign shall be solely with reference to the promotion of personal ends. Our advice to Republicans is to support the Republican party and its principles now, and leave other questions to be decided hereafter. They can keep. Republicans cannot fight the Democratic party and themselves both at the same time with any prospect of achieving a victory over anybody save themselves. Don't let us quarrel at least not now.

The cause of communism, pure and simple, is not likely to gain much by the investigation that is now going on before the Congressional labor committee. The communists want everything held in common, and also desire a community of interests and of labor. Their ideal is a state of society where there shall be no rich nor no poor, none over worked and none living in idleness. In short, in which there shall be common advantages and common responsibilities. If such a state of society was practicable it would not perhaps be so bad after all. But unfortunately a large portion of the people desire to live without work. They want the advantages of the communistic plan without bearing the burdens and sharing the responsibilities that plan proposes. There is a great deal of sympathy wasted upon tramps, many of them no doubt would gladly go to work and earn an honest living, if they could find the work to do, but the experience of the farmers who have been compelled to work themselves nearly to death to save their grain while the towns and cities were thronged with idle men, shows that it is not so much a lack of work as a lack of disposition that ails the grand army of tramps.

A story embodying a large modicum of the sensational element comes from a Cincinnati reporter, who ascertained that a manufacturer of ammunition in that city was making a large number of "hand grenades," or small bombshells, but whether they were for the Communists or not the manufacturer said he dared not know. He received the order for 20,000 of these missiles from California, and was making them, "and that was all he knew or wanted to know." A Cincinnati dispatch says it is suspected, however, that the hand grenades are for the Communists in that vicinity. A recent letter received by an officer of the Socialistic Labor party, at Cincinnati, from a leader of Communists in Pennsylvania, said that the Communists there were "armed with hand grenades and prepared to do effective work when the time came." It is feared that this system of preparation for an uprising is spreading, and that this is the meaning of the activity in the meaning of the activity in this line of manufacture.

In this connection, a dispatch from Dunellen, N. J., intimates that "in accordance with the programme of the Miner's National Organization, it has been agreed that a general strike shall be made on or about the 15th instant. The trouble in the coal regions of Pennsylvania will be started, in all probability, in the Lehigh region. The cause is that operators refuse to raise wages."

With pleasure we call the attention of our readers to the announcement of Martin Forstmyer, as the Republican nominee for Sheriff of this county. He has merited and richly deserved renomination. Martin has made a good officer. We have never yet heard any one say a word against him in this respect. Some have personal objections to him, but even they are compelled to admit that as an officer he has been active and efficient. He came to Decatur years ago, a poor, friendless youth, with nothing to recommend him but his willingness to work, and his warm, generous, big German soul. Yet he toiled on until he obtained a seat in the city council, then was elected mayor, afterwards sheriff, and now he is before the people for re election. Republicans, rally to his support; he deserves well at your hands.—*Macon News.*

The Republicans of South Carolina have resolved that "it is inexpedient to nominate candidates for Governor and other State officers, because, owing to the condition of affairs in this State, occasioned by rifle club rule and two years of Democratic supremacy, it is impossible for Republican voters in many counties, without incurring great personal danger, to organize for the campaign or to vote at the election when held. This falls somewhat short of the indorsement of Gov Hampton's Administration which it was predicted would be pronounced by the Republican Convention. The South Carolina Republicans may be the best judges as to the circumstances and conditions which have induced this action; but at this distance the surrender of the field without a struggle in a State which contains a legitimate majority of Republican voters looks like simple cowardice.—*Chicago Tribune*

TELEGRAPHIC

WIND AND RAIN.

TERRIBLE STORMS IN THE EAST.

Spread of the Yellow Fever.

Political Intelligence.

Indian Hostilities.

Hartford, Aug. 9.—This afternoon about 6 o'clock a tornado struck the village of Wallingford, demolishing the old Catholic Church on the plains, and then levelled some twenty houses in Wallace's row. Other houses were moved and injured. Going up the hill the tornado dashed to the ground a $30,000 brick school house, and then passed over the hill, snapping big elm trees as if they were mere reeds, and laying prostrate telegraph poles. Several persons have been killed and many wounded, and the village authorities have sent to Meriden for doctors.

Meriden, August 9.—The severest storm of thunder, lightning, rain and wind ever known in Meriden, occurred this afternoon. The new shop of Bradley & Hubbard was badly damaged about the roof. Many chimneys and trees were blown down, but no lives lost.

Wallingford, Aug. 9. At 6 o'clock, while men were leaving the factories, a gentle rain began to fall, and soon increased to a perfect deluge, while almost continuous and vivid lightning illuminated the darkened sky, at times as bright as day, and thunder rolled with unceasing and deafening roar.—Without warning a tornado with hail and rain swept across the northern part of town, from west to east, and everything moveable in its track was carried away. It seemed to last but a moment, but its results were frightful. Afterwards a light rain fell, and this soon ceased; and at 8 o'clock the moon shone brightly down upon a scene of desolation. By actual count forty dwelling houses were demolished and at least fifty barns. The following are among the killed, nearly all by houses falling: In the Plains school house, on children's desks, lay the bodies of Mrs. M. Mooney, John Mooney and wife, and Matthew Mooney, Cornelius Child, Tracy and wife, Mrs. Joseph Holdy and infant child, Frederick Litthewood, Mrs. John Boyle, Mrs John Lymath, making 12 in all. Besides these, John Cashin, aged 16, a young daughter of Robert Saunders, and Thomas Dailey's child, Mrs. E. Downs, Katie Coughlin, aged 15, Patrick O'Neil's child, and John Haden, aged 16, are all certainly among the killed, and it is possible one or two are among the ruins in addition.

Watertown, N. Y., Aug 9. Trains over local roads have been about stopped by the storm last night, and are not expected to be running again before to morrow night. Turnpikes are impassable, owing to the destruction of bridges. Whole fields of grain, corn and other products are wholly ruined. Grain harvested and stacked was swept away by the flood. One man of this city was awakened by his bed becoming wet. He found the front door of the house open and water two feet deep upon the floor, and the cradle containing the baby asleep floating around. In some places live stock was swept away and lost. The lightning was almost continuous and painfully vivid.

Champaign, Ill., Aug. 9.—The poisoned cake which has caused so much excitement here, a little of which poisoned so many persons in Urbana, causing the death of Mrs. Masters, who made it, has been passing through tests under the hands of Messrs. Scovell and Barnes, chemists in the university laboratory. The examinations are not completed, but every test of the frosting shows large quantities of arsenic. There are no known facts and no reasonable theory that in the least account for the presence of arsenic in the house.—Strangely, no inquest was held. Mrs. Masters barely tasted the materials while mixing, and died, while the guests ate of the cake, and being severely vomited, recovered.

Young Oliver Bales was found dead on his father's farm, near Charleston, in Coles county, yesterday morning. He was hanging by a rope thrown over the rafters. A young lady whom he had visited the previous evening had refused his hand, whereupon he told her he should kill himself. The deed of desperation soon followed.

Freeport, Ill, August 9. In the Republican Convention of the Fifth Congressional District, held in this city yesterday, Captain R. M. Hawk, of Mt. Carroll, was nominated for Congress on the 517th ballot. The battle was a warm, yet hotly contested one, lasting, with a short intermission, from 2 o'clock p. m. until midnight, and closing one of the most vigorous and heated canvasses the Fifth District has ever known.—Captain Hawk came into the convention with twenty two delegates; McClellan, of Jo Daviess county, with eleven; Burchard, of Stephenson county, with twelve, and Warner, of Whiteside, with fourteen. The decisive ballot was reached by Jo Daviess county forsaking McClellan and giving three votes to Burchard and eight to Hawk.

Washington, August 9.—Representative Blackburn sounded the key note of the Democratic campaign in his interview published here today. His statement of the issues that the Democracy propose to present, is regarded by Republicans here who have not been fully in accord with the Southern policy of the Administration, as the most wholesome tonic that can be administered to that faction of the party who have exhibited a tendency to slop-over on conciliations, party divisions, old line Whigs and other surface indications of a division of the dominant party in the South. A prominent Southern Republican said to-night that Mr. Blackburn's estimate of the strength of Grant as a candidate in 1880 could only be regarded a clean case of bluff, that the nomination of a candidate in 1880 with the backbone of Grant would cause an upheaval of the crust throughout the South that would bid defiance to White Leaguers and shot gun politics, and would tend to convince Mr. Blackburn and his associates on the Democratic Congressional Committee that the bird's eye view of the political complexion of the South was as superficial as their figures of the Democratic majority in the next House.

Washington, D. C., Aug. 9.—The surrender of imprisoned revenue officials to the Federal authorities at Greenville, S. C., yesterday, is regarded here as being in pursuance of an understanding between the President and Wade Hampton, whereby the Government agrees not to prosecute those illicit distillers in South Carolina who surrender themselves and promise to strictly observe the Revenue laws in future.

Representative Charles Foster says that President Hayes will give the Republican Congressional Committee as much money as did his predecessor, General Grant, who drew his check for $5,000.

Commissioner Raum has not yet received the letter of the Chicago distillers, charging that there is something wrong in Cincinnati and Peoria in the manufacture of whisky there, inasmuch as they undersell the Chicago distillers 2 or 3 cents per gallon. As soon as the letter arrives, Commissioner Raum will give it careful attention. He attributes the underselling to the laxity of gangers, who allow the distillers a half gallon, in many cases, in ganging. He does not think there is much, if any, "crookedness" going on at Cincinnati. Collector Amos Smith is on guard.

New Orleans, August 9.—New cases, 45, deaths, 12.

The yellow fever continues to spread and is now well distributed throughout the first and second districts, with occasional cases in other quarters of the city. The board of health continue the use of carbolic acid as a disinfectant, but will try lime in a few days. Arrangements also being perfected for irrigating the city by flushing the gutters with river water. The hopes of health officers of checking the disease by carbolizum are weakening.

The *Bee*, complaining of the withdrawal from publication, by the board of health, of yellow fever bulletins of new cases, observes in regard to the death register: "These reports relate to mortality caused by yellow fever. At least they are given as such, although including some very strange cases of death; for example, deaths of children born here of creole parentage. We must acknowledge it is difficult for us to believe these children, doubly Orleans both by reason of their birth and race, should be victims of yellow fever. Can it be we have some other malarial prevalent among us?

Four cases of fever are reported to day, at Port Eads. Dr Stone, with two experienced nurses, arrived there this evening. He says the cases are yellow low fever and the worst in his experience. Jetty officers report that there are 28 men there to take care or property and assist in nursing the sick.

Washington, Aug 9.—New Orleans has been instructed to hold Texas mails until the restriction at Little Rock and other points because of yellow fever, is removed.

Helena, Mont., August 9.—There is no truth in the report that Tenday's band of Bannocks had left the agency with a hostile intent. They are proceeding under an escort of United States troops to buffalo country. It is claimed that there are no provisions at the agency, and that they have been subsisting on rabbits and squirrels. One of their number, while stealing some things from a ranche at Beaverhead Canon, was shot and killed by a party on the lookout for the thief. Consid erable excitement was thus caused through an uncertainty as to how the Bannocks might regard the deed. Ten day was notified of the occurrence, and on seeing the remains of the thief, said, "He was a bad Indian—bury him."

Clinton, Ill., Aug. 9. E. H. Palmer, an attorney of some prominence of this city, who was being tried at Havana, Ill., on a change of venue from DeWitt county circuit court for perjury, was acquitted last night by the jury bringing in a verdict of not guilty. His friends and enemies alike say the verdict is just.

New York, Aug 9. At Pape Vincent, in the storm last night, the Presbyterian and Catholic churches, the railroad warehouse and a dwelling were much damaged by lightning. The storm on the St. Lawrence was terrible. Telegraph lines were all prostrated and no trains arrived to day. Barns filled with grain were upturned. At Belleville, Ont., to day, wind and lightning did much damage to houses, barns and outlying grain. In Toronto three houses were considerably injured by lightning.

From Mississippi comes word that the Democrats of that State actually propose to elect Jeff Davis United States Senator in place of Mr. Bruce, the colored Republican, whose term will expire in 1881. Having already filled their quota in the House with rebel Brigadiers, it would be in keeping with Southern Democratic policy if they should fill their quota in the Senate with the surviving originators and leaders of the rebellion. Indeed, if the true and loyal people of this country should fail duly to perform their political duties within the next year or two, we may make up our minds to see not only both houses of Congress, but the Executive office, in the full possession and control of the traitors who, only a few years ago, made open war against the Republic, for its destruction.

WHY THE HAIR FALLS OUT.

And How to Restore its Strength and Color. Each hair is secreted by a little vesicle or gland, the latter being nourished by a small blood-vessel. As long as these blood-vessels furnish sufficient encouragement the hair will continue to grow; but if from disease or other cause they become torpid or obstructed, the hair will necessarily become dry and fall off. It is here the wonderful virtues of "London Hair-Color Restorer" are manifested, as its tonic properties excite these hair follicles to *increased activity and completely restore* the scalp to a healthy condition, and a new growth of hair in its natural youthful color is sure to be the result. Apart from its tonic and coloring qualities, "London Hair-Color Restorer" is the most cleanly and lasting of all hair dressings, making it indispensable on the toilet of every lady and gentleman. Sold at 75 cents a bottle by all leading druggists.

Rev. J. G. White has been lecturing the past week in Decatur on Catholicism. Sheriff Forstmyer refused him the use of the court house for that purpose, which resulted in a newspaper wrangle. We think that Mr. Forstmyer did right in refusing the court house to Mr. White for the purpose of abusing peaceable citizens because they differ with him religiously. This action ought to secure Sheriff Forstmyer a good many friends and votes.—*Macon News.*

The Keokuk *Gate City* says that a government surveying party just arrived there "is well equipped with guns, hunting dogs and fishing tackle." The purpose of the survey is to find all the sloughs and small streams that empty into the river so as to form sand bars in low water, with a view to making the improvements provided for in the appropriation made by the last Congress, and we suppose the dogs are to be used to nose them out, the guns to discover their importance, and the fish lines to decide upon their navigability.

THE PROHIBITIONISTS.

The Prohibition party held a district convention at Clinton yesterday, and nominated J. F. Harrold, of DeWitt, for senator, and Elder N. S. Haynes, of this city, for representative. Of Mr. Harrold it is only necessary to say that he has served a four years' term in the Senate without even being heard of except at roll call. He was as perfect a nonentity as ever sat in a legislative body, and four years of experience were not sufficient to make anything of him that could be of service to his constituents.

Elder Haynes is an active, energetic young man, of fine ability, and a good speaker. If elected—which there is no good reason to expect—he would make a useful member.

SECRETARY GORHAM ON THE PROSPECT.

Secretary Gorham, of the National Republican Congressional Committee, stated in an interview last Monday that his hopes in regard to Republican success have risen one hundred per cent within the last five days, and from information received from all directions, he believed there will be a Republican majority in the next House. He says all the doubtful districts are in the most favorable condition. The Democrats are making unpopular nominations and the Republicans are making good ones, and if the canvass continues as it has commenced, there will be a change of thirty votes in the present House. The committee will issue in a few days a campaign text book on finance for the use of political writers and speakers that will contain a record of the Republican party on finance and other valuable information.

That there is a strong connection between honest politics and the public health is shown by a Washington dispatch, in which attention is called to the fact that "yellow fever has not raged so furiously in New Orleans as at present since General Butler occupied and cleansed the city, except in 1867, under Democratic administration. When the Republicans have been in power there the city has been kept clean and free from epidemics."

Mr Barnum tells a Cleveland *Herald* reporter that he pays his best rider $700 a week, the leading equestrienne $300, pad riders from $400 to $125, acrobats and gymnasts from $60 to $100, clowns from $150 to $175. Of his advertising expenses he says "My printing this season has already cost me $43,000, but my newspaper bills in a season amount to a great deal more. My expenses on my trip three years ago amounted to $650,000, and in that year in six months the profits were $60,000."

For a few days past the Sangamon County Circuit Court has been engaged upon a case involving the question whether in a city a fireman is a municipal officer or not. The suit was brought by an ex fireman in Springfield against the city, for the recovery of a month's salary, which he claimed was due him. The court decided in favor of the fireman, regarding the plaintiff in no sense a city officer, but simply an employe of the city council, in like manner as a janitor, and subject to its control, through the committee on fire and water. The Mayor is a member of that committee, and his attempt to remove the plaintiff is regarded as a report by the committee in favor of his dismissal, which the council, as the judge holds, concurred in by consenting to the employment of another man in place of the plaintiff. This action of the council, the court decides, is equivalent to discharging its employe.

THE SOUNDEST KIND OF SENSE.

The following from the Troy (N. Y.) *Times* was written for the latitude of that state, but it applies with equal force to Illinois.

The first duty of honest, earnest Republicans, now, is unity of action and purpose. It is not to discuss this or that man's claim to the Senatorship in the event of success this fall. After the Legislature shall have been secured, it will be time enough for the enemies of Mr. Conkling to show wherein he has fallen short of a faithful discharge of the great trust with which the state of New York commissioned him, and for his friends to prove, if necessary, how ably and honestly and well he has borne aloft the standard and name of the Empire State in the highest legislative body of the world. The Republican party cannot succeed if there are discord and distrust in the organization of that party, and if each movement that is made in the progress of the campaign shall be solely with reference to the promotion of personal ends. Our advice to Republicans is to support the Republican party and its principles now, and leave other questions to be decided hereafter. They can keep. Republicans cannot fight the Democratic party and themselves both at the same time with any prospect of achieving a victory over anybody save themselves. Don't let us quarrel at least not now.

The cause of communism, pure and simple, is not likely to gain much by the investigation that is now going on before the Congressional labor committee. The communists want everything held in common, and also desire a community of interests and of labor. Their ideal is a state of society where there shall be no rich nor no poor, none overworked and none living in idleness. In short, in which there shall be common advantages and common responsibilities. If such a state of society was practicable it would not perhaps be so bad after all. But unfortunately a large portion of the people desire to live without work. They want the advantages of the communistic plan without bearing the burdens and sharing the responsibilities that plan proposes. There is a great deal of sympathy wasted upon tramps, many of them no doubt would gladly go to work and earn an honest living, if they could find the work to do, but the experience of the farmers who have been compelled to work themselves nearly to death to save their grain while the towns and cities were thronged with idle men, shows that it is not so much a lack of work as a lack of disposition that ails the grand army of tramps.

A story embodying a large modicum of the sensational element comes from a Cincinnati reporter, who ascertained that a manufacturer of ammunition in that city was making a large number of "hand grenades," or small bombshells, but whether they were for the Communists or not the manufacturer said "he dared not know." He received the order for 20,000 of these missiles from California, and was making them, "and that was all he knew or wanted to know." A Cincinnati dispatch says it is suspected, however, that the hand grenades are for the Communists in that vicinity. A recent letter received by an officer of the Socialistic Labor party, at Cincinnati, from a leader of Communists in Pennsylvania, said that the Communists there were "armed with hand grenades and prepared to do effective work when the time came." It is feared that this system of preparation for an uprising is spreading, and that this is the meaning of the activity in the meaning of the activity in this line of manufacture.

In this connection, a dispatch from Dunellen, N. J., intimates that "in accordance with the programme of the Miner's National Organization, it has been agreed that a general strike shall be made on or about the 15th instant. The trouble in the coal regions of Pennsylvania will be started, in all probability, in the Lehigh region. The cause is that operators refuse to raise wages."

With pleasure we call the attention of our readers to the announcement of Martin Forstmyer, as the Republican nominee for Sheriff of this county. He has merited and richly deserved renomination. Martin has made a good officer. We have never yet heard any one say a word against him in this respect. Some have personal objections to him, but even they are compelled to admit that as an officer he has been active and efficient. He came to Decatur years ago, a poor, friendless youth, with nothing to recommend him but his willingness to work, and his warm, generous, big German soul. Yet he toiled on until he obtained a seat in the city council, then was elected mayor, afterwards sheriff, and now he is before the people for re-election. Republicans, rally to his support; he deserves well at your hands.—*Macon News.*

The Republicans of South Carolina have resolved that "it is inexpedient to nominate candidates for Governor and other State officers, because, owing to the condition of affairs in this State, occasioned by rifle club rule and two years of Democratic supremacy, it is impossible for Republican voters in many counties, without incurring great personal danger, to organize for the campaign or to vote at the election when held. This falls somewhat short of the indorsement of Gov Hampton's Administration which it was predicted would be pronounced by the Republican Convention. The South Carolina Republicans may be the best judges as to the circumstances and conditions which have induced this action; but at this distance the surrender of the field without a struggle in a State which contains a legitimate majority of Republican voters looks like simple cowardice.—*Chicago Tribune*

TELEGRAPHIC

WIND AND RAIN.

TERRIBLE STORMS IN THE EAST.

Spread of the Yellow Fever.

Political Intelligence.

Indian Hostilities.

Hartford, Aug. 9.—This afternoon about 6 o'clock a tornado struck the village of Wallingford, demolishing the old Catholic Church on the plains, and then levelled some twenty houses in Wallace's row. Other houses were moved and injured. Going up the hill the tornado dashed to the ground a $30,000 brick school house, and then passed over the hill, snapping big elm trees as if they were mere reeds, and laying prostrate telegraph poles. Several persons have been killed and many wounded, and the village authorities have sent to Meriden for doctors.

Meriden, August 9.—The severest storm of thunder, lightning, rain and wind ever known in Meriden, occurred this afternoon. The new shop of Bradley & Hubbard was badly damaged about the roof. Many chimneys and trees were blown down, but no lives lost.

Wallingford, Aug. 9. At 6 o'clock, while men were leaving the factories, a gentle rain began to fall, and soon increased to a perfect deluge, while almost continuous and vivid lightning illuminated the darkened sky, at times as bright as day, and thunder rolled with unceasing and deafening roar.—Without warning a tornado with hail and rain swept across the northern part of town, from west to east, and everything moveable in its track was carried away. It seemed to last but a moment, but its results were frightful. Afterwards a light rain fell, and this soon ceased; and at 8 o'clock the moon shone brightly down upon a scene of desolation. By actual count forty dwelling houses were demolished and at least fifty barns. The following are among the killed, nearly all by houses falling: In the Plains school house, on children's desks, lay the bodies of Mrs. M. Mooney, John Mooney and wife, and Matthew Mooney, Cornelius Child, Tracy and wife, Mrs. Joseph Huldy and infant child, Frederick Littlewood, Mrs. John Boyle, Mrs John Lymath, making 12 in all. Besides these, John Cashin, aged 16, a young daughter of Robert Saunders, and Thomas Dailey's child, Mrs. E. Downs, Katie Coughlin, aged 15, Patrick O'Neil's child, and John Huden, aged 16, are all certainly among the killed, and it is possible one or two are among the ruins in addition.

Watertown, N. Y., Aug 9. Trains over local roads have been about stopped by the storm last night, and are not expected to be running again before to-morrow night. Turnpikes are impassable, owing to the destruction of bridges. Whole fields of grain, corn and other products are wholly ruined. Grain harvested and stacked was swept away by the flood. One man of this city was awakened by his bed becoming wet. He found the front door of the house open and water two feet deep upon the floor, and the cradle containing the baby asleep floating around. In some places live stock was swept away and lost. The lightning was almost continuous and painfully vivid.

Champaign, Ill., Aug. 9.—The poisoned cake which has caused so much excitement here, a little of which poisoned so many persons in Urbana, causing the death of Mrs. Masters, who made it, has been passing through tests under the hands of Messrs. Scovell and Barnes, chemists in the university laboratory. The examinations are not completed, but every test of the frosting shows large quantities of arsenic. There are no known facts and no reasonable theory that is the least account for the presence of arsenic in the house.—Strangely, no inquest was held. Mrs. Masters barely tasted the materials while mixing, and died, while the guests ate of the cake, and being severely vomited, recovered.

Young Oliver Bales was found dead on his father's farm, near Charleston, in Coles county, yesterday morning. He was hanging by a rope thrown over the rafters. A young lady whom he had visited the previous evening had refused his hand, whereupon he told her he should kill himself. The deed of desperation soon followed.

Freeport, Ill., August 9. In the Republican Convention, of the Fifth Congressional District, held in this city yesterday, Captain R. M. Hawk, of Mt. Carroll, was nominated for Congress on the 517th ballot. The battle was a was a most hotly contested one, lasting, with a short intermission, from 2 o'clock p. m. until midnight, and closing one of the most vigorous and heated canvasses the Fifth District has ever known.—Captain Hawk came into the convention with twenty two delegates; McClellan, of Jo Daviess county, with eleven; Burchard, of Stephenson county, with twelve, and Warner, of Whiteside, with fourteen. The decisive ballot was reached by Jo Daviess county forsaking McClellan and giving three votes to Burchard and eight to Hawk.

Washington, August 9.—Representative Blackburn sounded the key note of the Democratic campaign in his interview published here today. His statement of the issues that the Democracy propose to present, is regarded by Republicans here who have not been fully in accord with the Southern policy of the Administration, as the most wholesome tonic that can be administered to that faction of the party who have exhibited a tendency to slop-over on conciliations, party divisions, old line Whigs and other surface indications of a division of the dominant party in the South. A prominent Southern Republican said to-night that Mr. Blackburn's estimate of the strength of Grant as a candidate in 1880 could only be regarded a clean case of bluff, that the nomination of a candidate in 1880 with the backbone of Grant would cause an upheaval of the crust throughout the South that would bid defiance to White Leaguers and shot gun politics, and would tend to convince Mr. Blackburn and his associates on the Democratic Congressional Committee that the Bird's eye view of the political complexion of the South was as superficial as their figures of the Democratic majority in the next House.

Washington, D. C., Aug. 9.—The surrender of imprisoned revenue officials to the Federal authorities at Greenville, S. C., yesterday, is regarded here as being in pursuance of an understanding between the President and Wade Hampton, whereby the Government agrees not to prosecute those illicit distillers in South Carolina who surrender themselves and promise to strictly observe the Revenue laws in future.

Representative Charles Foster says that President Hayes will give the Republican Congressional Committee as much money as did his predecessor, General Grant, who drew his check for $5,000.

Commissioner Raum has not yet received the letter of the Chicago distillers, charging that there is something wrong in Cincinnati and Peoria in the manufacture of whisky there, inasmuch as they undersell the Chicago distillers 2 or 3 cents per gallon. As soon as the letter arrives, Commissioner Raum will give it careful attention. He attributes the underselling to the laxity of gaugers, who allow the distillers a half gallon, in many cases, in gauging. He does not think there is much, if any, "crookedness" going on at Cincinnati. Collector Amos Smith is on guard.

New Orleans, August 9.—New cases, 15, deaths, 12.

The yellow fever continues to spread and is now well distributed throughout the first and second districts, with occasional cases in other quarters of the city. The board of health continue the use of carbolic acid as a disinfectant, but will try lime in a few days. Arrangements also being perfected for irrigating the city by flushing the gutters with river water. The hopes of health officers of checking the disease by carbolizing are weakening.

The *Bee*, complaining of the withdrawal from publication, by the board of health, of yellow fever bulletins of new cases, observes in regard to the death register: "These reports relate to mortality caused by yellow fever. At least they are given as such, although including some very strange cases of death; for example, deaths of children born here of creole parentage. We must acknowledge it is difficult for us to believe these children, doubly Orleans both by reason of their birth and race, should be victims of yellow fever. Can it be we have some other malarial prevalent among us?

Four cases of fever are reported to day, at Fort Pads. Dr Stone, with two experienced nurses, arrived there this evening. He says the cases are yellow low fever and the worst in his experience. Jetty officers report that there are 28 men there to take care or property and assist in nursing the sick.

Washington, Aug 9.—New Orleans has been instructed to hold Texas mails until the restriction at Little Rock and other points because of yellow fever, is removed.

Helena, Mont, August 9.—There is no truth in the report that Tenday's band of Bannocks had left the agency with a hostile intent. They are proceeding under an escort of United States troops to buffalo country. It is claimed that there are no provisions at the agency, and that they have been subsisting on rabbits and squirrels. One of their number, while stealing some things from a ranche at Beaverhead Canon, was shot and killed by a party on the lookout for the thief. Considerable excitement was thus caused through an uncertainty as to how the Bannocks might regard the deed. Ten day was notified of the occurrence, and on seeing the remains of the thief, said, "He was a bad Indian—bury him."

Clinton, Ill., Aug. 9. E. H. Palmer, an attorney of some prominence of this city, who was being tried at Havana, Ill., on a change of venue from DeWitt county circuit court for perjury, was acquitted last night by the jury bringing in a verdict of not guilty. His friends and enemies alike say the verdict is just.

New York, Aug 9. At Cape Vincent, in the storm last night, the Presbyterian and Catholic churches, the railroad warehouse and a dwelling were much damaged by lightning. The storm on the St. Lawrence was terrible. Telegraph lines were all prostrated and no trains arrived to day. Barns filled with grain were upturned. At Belleville, Ont., to day, wind and lightning did much damage to houses, barns and outlying grain. In Toronto three houses were considerably injured by lightning.

From Mississippi comes word that the Democrats of that State actually propose to elect Jeff Davis United States Senator in place of Mr. Bruce, the colored Republican, whose term will expire in 1881. Having already filled their quota in the House with rebel Brigadiers, it would be in keeping with Southern Democratic policy if they should fill their quota in the Senate with the surviving originators and leaders of the rebellion. Indeed, if the true and loyal people of this country should fail duly to perform their political duties within the next year or two, we may make up our minds to see not only both houses of Congress, but the Executive office, in the full possession and control of the traitors who, only a few years ago, made open war against the Republic, for its destruction.

WHY THE HAIR FALLS OUT.

And How to Restore its Strength and Color. Each hair is secreted by a little vesicle or gland, the latter being nourished by a small blood-vessel. As long as these blood-vessels furnish sufficient encouragement the hair will continue to grow; but if from disease or other cause they become torpid or obstructed, the hair will necessarily become dry and fall off. It is here the wonderful virtues of "London Hair-Color Restorer" are manifested, as its tonic properties excite these hair follicles to increased activity and completely restore the scalp to a healthy condition, and a fine growth of hair in its natural youthful color is sure to be the result. Apart from its tonic and coloring qualities, "London Hair-Color Restorer" is the most cleanly and lasting of all hair dressings, making it indispensable on the toilet of every lady and gentleman. Sold at 75 cents a bottle by all leading druggists.

Rev. J. G. White has been lecturing the past week in Decatur on Catholicism. Sheriff Forstmyer refused him the use of the court house for that purpose, which resulted in a newspaper wrangle. We think that Mr. Forstmyer did right in refusing the court house to Mr. White for the purpose of abusing peaceable citizens because they differ with him religiously. This action ought to secure Sheriff Forstmyer a good many friends and votes.—*Macon News.*

An Undeniable Truth.

You deserve to suffer, and if you lead a miserable unsatisfactory life in this beautiful world, it is entirely your own fault and there is only one excuse for you your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning will soon show you that Green's August Flower will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual costiveness, dizziness of the head, nervous prostration, low spirits, etc. Its sale now reaches every town on the Western Continent, and not a druggist but will tell you of its wonderful cures. You can buy a sample bottle for 10 cents. Three doses will relieve you.

The Keokuk *Gate City* says that a government surveying party just arrived there "is well equipped with guns, hunting dogs and fishing tackle." The purpose of the survey is to find all the sloughs and small streams that empty into the river so as to form sand bars in low water, with a view to making the improvements provided for in the appropriation made by the last Congress, and we suppose the dogs are to be used to nose them out, the guns to discover their importance, and the fish lines to decide upon their navigability.

THE highways in the county are being worked this season earlier than usual -- This is as it should be The earlier the roads are repaired after they are dry enough to work, the better it is for them as they will then have time to get well hardened before the fall rains set in

Lots of people said yesterday afternoon, "O for a shower!" hoping that with it would come cooler air and more of it - The shower came and went, and so did the cool breeze, leaving humanity to swelter again in a sultry atmosphere that is really oppressive.

THE prohibitionists "opened the campaign" at Wheatland on Tuesday evening, having advertised the same very extensively throughout the township, but when the time came the principal part of the "crowd" consisted of the speakers -- The meeting was a fair type of what the party will be -a failure.

WE hear of a little unpleasantness which took place at Shady Grove School House on Saturday night, at a singing meeting held there We have not the particulars of the affair, but the fight is to be ventilated before Justice Albert this afternoon

MESSRS HENDRICKS AND HARDY, who live on opposite corners of Church and Green streets, have laid a five inch tile west from their premises to an outlet in the railroad right of way, for the purpose of draining their cellars more perfectly Two or three of their neighbors join them in the enterprise

SCHOOL children are now approaching the end of their rope, so far as vacation recreation is concerned, and in a few weeks the school bell will call them from "refreshment to labor" The four weeks that remain will doubtless be well improved by the juveniles, and those who have not already taken their vacation trip will put themselves on wheels and be off with a whistle and a hum

THE Decatur firemen are putting in their best licks at running, preparatory to the State Tournament, which comes off in Chicago early in September. We have no doubt that our boys will give a good account of themselves when the time comes, and if they don't bring away some of the laurels we shall be wonderfully disappointed Muscle will tell

THE continued use of our graveled streets, by which they are becoming more solid, gives them increasing favor with the public, and it is well understood that the more we have of them the less liable they are to become encumbered with mud falling from wagon wheels. Good streets are most desirable, and in this country of mud they become all the more attractive by contrast

ALL the people like comfort, and to have this summer dress need to be abated in the house. This can be done by means of the famous coal oil stove sold by R C Crocker. By using these stoves cooking may be done without heat in the house, and at a less expense than it can be done with wood or coal. Call and examine these wonderful pieces of household furniture, and you will be convinced of their utility.

THE heavy frost blossom of the early spring, together with the clover blossom of the summer, have furnished bees with an abundance of material for carrying on their little business of honey making, and right well have the little workers improved "each shining hour." The harvest of honey is immense in quantity and choice in quality, and the price brings the luxury within reach of all, so everybody can have "sweetness long drawn out."

FREAK OF A MULE TEAM. - Yesterday afternoon a mule team belonging to R. H. Merriweather, Esq., stood in front of the Grange Store, on South Main street, hitched to a small iron weight. All at once the animals took a notion to move, and, as they did so, the weight upon the ground moved, seeing which the animals became frightened and started to run down South Main street Mr C. N. Greenman, the clerk in the store, seeing the animals start, went after them and overtook them before they got to the corner of Wood street, and seizing the mules by the bit attempted to stop them In doing so he came near being thrown under the runaways, and, as it was, one of them hit him in the back of his head with his foot, raising a large lump The young man also received a bad cut over one eye - Altogether it was a very narrow escape from serious injuries, and Mr G may consider himself fortunate that he got off so well

The usual weekly temperance mass meeting will take place at the court house this evening, and the principal address will be delivered by Rev Mr Martin, of Lincoln Mr M has been thoroughly identified with the temperance movement in his own city, where he is rector of the Episcopal church He is an able speaker, and will doubtless interest all who may listen to him All are invited to attend

DECATUR MOUNTAINS. - On the south side of the park are eight mounds of dirt which have been scraped together in the process of street cleaning, and which have been allowed to remain there since yesterday. Four of these mounds are on the south side of the street, and this forenoon some person labeled them as follows Nearest to Water street is "Mount Ceals," next to this is "Buckingham's Peak," then comes "Mt Dennis," and at the east end of the range is "Shorb's Hill." The range on the north side of the street is supposed to be the Black Hills.

LIVER IS KING.

The liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. THE juicy watermelon has appeared in the market, and the rinds thereof cause many to fall

A LARGE delegation of Turners left for Bloomington by the three o'clock train this afternoon to attend the Turn Fest at that place on Monday.

HOTEL registers show rather a light travel these days. An improvement in this matter will come with the opening of fall trade.

THE rapid movement of wheat from west to east will soon relieve the pressure in money matters in this part of the country Macon county wheat will be largely marketed at home

READ the advertisement which appears in our columns to-day, relating to bargains to be had at Gehrmann's dry goods store on Merchant street

THE highways in the county are being worked this season earlier than usual -- This is as it should be The earlier the roads are repaired after they are dry enough to work, the better it is for them as they will then have time to get well hodden before the fall rains set in

LOTS of people said yesterday afternoon, "O for a shower!" hoping that with it would come cooler air but more of it - The shower came and went, and so did the cool breeze, leaving humanity to swelter again in a sultry atmosphere that is really oppressive.

THE prohibitionists "opened the campaign" at Wheatland on Tuesday evening, having advertised the same very extensively throughout the township, but when the time came the principal part of the "crowd" consisted of the speakers -- The meeting was a fair type of what the the party will be -a failure.

WE hear of a little unpleasantness which took place at Shady Grove School House on Saturday night, at a singing meeting held there We have not the particulars of the affair, but the fight is to be ventilated before Justice Albert this afternoon

MESSR HENDRICKS AND HARDY, who live on opposite corners of Church and Green streets, have laid a five inch tile west from their premises to an outlet in the railroad right of way, for the purpose of draining their cellars more perfectly Two or three of their neighbors join them in the enterprise

SCHOOL children are now approaching the end of their rope, so far as vacation recreation is concerned, and in a few weeks the school bell will call them from "refreshment to labor" The four weeks that remain will doubtless be well improved by the juveniles, and those who have not already taken their vacation trip will put themselves on wheels and be off with a whistle and a hum

THE Decatur firemen are putting in their best licks at running, preparatory to the State Tournament, which comes off in Chicago early in September. We have no doubt that our boys will give a good account of themselves when the time comes, and if they don't bring away some of the laurels we shall be wonderfully disappointed Muscle will tell

THE continued use of our graveled streets, by which they are becoming more solid, gives them increasing favor with the public, and it is well understood that the more we have of them the less liable they are to become encumbered with mud falling from wagon wheels. Good streets are most desirable, and in this country of mud they become all the more attractive by contrast

ALL the people like comfort, and to have this summer days need to be abated in the house. This can be done by means of the famous coal oil stove sold by R C Crocker. By using these stoves cooking may be done without heat in the house, and at a less expense than it can be done with wood or coal. Call and examine these wonderful pieces of household furniture, and you will be convinced of their utility.

THE heavy fruit blossom of the early spring, together with the clover blossom of the summer, have furnished bees with an abundance of material for carrying on their little business of honey making, and right well have the little workers improved "each shining hour." The harvest of honey is immense in quantity and choice in quality, and the price brings the luxury within reach of all, so everybody can have "sweetness long drawn out."

PERSONAL.

Mr. Wm. Dodson, Chief Engineer of the Decatur Fire Department, called at the REPUBLICAN office this morning, in company with Messrs. I W. Shuman and J. S Hughes, his assistants, and E D. Carter, secretary of the Department. These gentlemen are arranging for the transportation of our boys to Chicago to attend the annual state tournament. They understand their biz, and will make arrangements that will be complete and satisfactory.

B. K. Durfee, Esq, returned this morning from a month's visit to the East

Isaac O. Eyman, of Harrlatown, received a violent fall this morning, while weighing a lot of hogs at that place. He is in town to-day, but is feeling quite used up

FREAK OF A MULE TEAM - Yesterday afternoon a mule team belonging to R H Merriweather, Esq, stood in front of the Grange Store, on South Main street, hitched to a small iron weight. All at once the animals took a notion to move, and, as they did so, the weight upon the ground moved, seeing which the animals became frightened and started to run down South Main street Mr C N Greenman, the clerk in the store, seeing the animals start, went after them and overtook them before they got to the corner of Wood street, and seizing the mules by the bit attempted to stop them In doing so he came near being thrown under the runaways, and, as it was, one of them hit him in the back of his head with his foot, raising a large bump The young man also received a bad cut over one eye - Altogether it was a very narrow escape from serious injuries, and Mr G may consider himself fortunate that he got off so well

TEMPERANCE MASS MEETING TO NIGHT. The usual weekly temperance mass meeting will take place at the court house this evening, and the principal address will be delivered by Rev Mr Martin, of Lincoln Mr M has been thoroughly identified with the temperance movement in his own city, where he is rector of the Episcopal church He is an able speaker, and will doubtless interest all who may listen to him All are invited to attend

DECATUR MOUNTAINS. - On the south side of the park are eight mounds of dirt which have been scraped together in the process of street cleaning, and which have been allowed to remain there since yesterday. Four of these mounds are on the south side of the street, and this forenoon some person labeled them as follows Nearest to Water street is "Mount Cenis," next to this is "Buckingham's Peak," then comes "Mt Dennis," and at the east end of the range is "Shorb's Hill." The range on the north side of the street is supposed to be the Black Hills.

THE boys of these days who have little hatchets, instead of trying them on their father's pet cherry tree as did George Washington, use them for the purpose of chipping neighbor's trees and fences. LIVER IS KING.

The liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want.

The Daily Republican.

Imposing on a Husband.

The public square is a resort much patronized by the sleepy of both sexes, regardless of color. Any day, benches full of men and women may be seen dozing, with their heads against their neighbors' shoulders, whether the neighbor be black or white; and such as are not dozing are generally arguing on politics. A young colored man and a white man occupied one of these benches yesterday morning, and were talking on the great question of the day,—Socialism.

"Tain't no use," said the white man, who was a broad-shouldered, stout individual, in his shirt-sleeves; "capitals's got to come down, and the laborin' man's got to have equal rights with the rich man. It's boun' to come. It can't be helped."

The colored man showed a row of white teeth, and answered: "Dat's what I wunna see, but it seems to me it's a long while comin'."

"It'll come—just you mind if t'won't," said the white man.

"A man," said his brother of color, "can't do nuffin' so long's capital gets control o' politics an' has everything its own way."

At this juncture, a little colored girl, who had been looking for somebody in the square, came toward the bench where the two men sat, and was greeted by the colored man with:

"Well, young gal, what's up?"

"Mother wants you," said the little colored girl.

"Wh's she want me fo'?" asked the colored man, stretching his legs and yawning.

"She wants you to kerry dem clo's home dat she's done took f'om de wash."

"An' wha's the matter wif her dat she ain't able to do it herself?"

"I don't know. She said you wasn't doin' nuffin' anyhow."

"Well, you go home an' tell her I'm not doin' nuffin' in de ole clo's line jes now, an fo' her not to forgit it."

The white man laughed as heartily as his languid disposition would allow, and his colored coadjutor, turning to him as his daughter walked away, remarked "I 'spose de ole woman 'll ask me to do her washin' next time." *Philadelphia Times.*

TO THE PUBLIC.

THE

"REPUBLICAN"

Is the oldest paper in Macon Co., and has

A Larger Circulation

Than all the other papers combined

THE DAILY REPUBLICAN,

Now in the sixth Year of its existence, long ago ceased to be an experiment, and has come to be regarded as

One of the Permanent Institutions

of Decatur. Its circulation is larger than that of any other daily paper ever published in Decatur, and is not of the fluctuating sort, which characterizes most new papers that are taken a week or two on trial and the n dropped; but on the contrary, its readers are in a large degree made up of the very best class of our citizens, who subscribe and pay for the paper

BY THE YEAR.

A glance at its advertising columns will show that this fact is realized by our patrons, who are among the oldest and best of our business men, and who make their contracts for advertising like they place their announces.

(BY THE YEAR)

They by testifying their faith in the permanency of the REPUBLICAN

It is now over ten years since the

Weekly Republican

Was established, and in all these years it has never missed an issue nor been behind time in the day of publication. Its success has been

SIMPLY UNPARALLELED

and its circulation was never equaled, or even approached, by any other newspaper published in Decatur. Its circulation to-day is

More than Three Times

as large as that of either of its contemporaries, a fact well understood and appreciated by advertisers.

The reasons for the marked degree of success which has attended the history of the REPUBLICAN are in no sense mysterious. The aim of its publishers has ever been to furnish to their readers such a newspaper as could be safely read in the family circle; a newspaper bearing upon its pages the news of the day in a form as attractive as was possible to maintain, a paper that should be the organ of no party, clique, or cabal. In short, a newspaper. They have not fallen into the too common error of imagining that the world was suffering and starving to learn their opinions, nor have they attempted to arrogate to themselves the leadership of every movement that engaged the attention of the public for the time being. Neither have they attempted, during political campaigns, to control the action of conventions, or to dictate the nomination of candidates. In a word, they have honestly endeavored to make the REPUBLICAN an impartial observer and recorder of passing events. The fact that the people have so emphatically endorsed this line of policy is the strongest argument that could be offered to its continuance.

Imposing on a Husband.

The public square is a resort much patronized by the sleepy of both sexes, regardless of color. Any day, benches full of men and women may be seen dozing, with their heads against their neighbors' shoulders, whether the neighbor be black or white; and such as are not dozing are generally arguing on politics. A young colored man and a white man occupied one of these benches yesterday morning, and were talking on the great question of the day,—Socialism.

"Tain't no use," said the white man, who was a broad-shouldered, stout individual, in his shirt-sleeves; "capitals got to come down, and the laborin' man's got to have equal rights with the rich man. It's boun' to come. It can't be helped."

The colored man showed a row of white teeth, and answered: "Dat's what I wanna see, but it seems to me it's a long while comin'."

"It'll come—just you mind if t'won't," said the white man.

"A man," said his brother of color, "can't do nuffin' so long's capital gets control o' politics an' has everything its own way."

At this juncture, a little colored girl, who had been looking for somebody in the square, came toward the bench where the two men sat, and was greeted by the colored man with

"Well, young gal, what's up?"

"Mother wants you," said the little colored girl.

"Wha's she want me fo'?" asked the colored man, stretching his legs and yawning.

"She wants you to kerry dem clo's home dat she's done took fom de wash."

"An' wha's the matter wif her dat she ain't able to do it herself?"

"I don't know. She said you wasn't doin' nuffin' anyhow."

"Well, you go home an' tell her I'm not doin' nuffin' in de ole clo's line jes now, an fo' her not to forgit it."

The white man laughed as heartily as his languid disposition would allow, and his colored coadjutor, turning to him as his daughter walked away, remarked "I spose de ole woman 'll ask me to do her washin' next time." *Philadelphia Times.*

TO THE PUBLIC.

THE

"REPUBLICAN"

Is the oldest paper in Macon Co., and has

A Larger Circulation

Than all the other papers combined

THE DAILY REPUBLICAN,

Now in the sixth Year of its existence, long ago ceased to be an EXPERIMENT, and has come to be regarded as

One of the Permanent Institutions

of Decatur. Its circulation is larger than that of any other daily paper ever published in Decatur, and is not of the fluctuating sort, which characterizes most new papers that are taken a week or two on trial and then dropped; but on the contrary, its readers are in a large degree made up of the very best class of our citizens, who subscribe and pay for the paper

BY THE YEAR.

A glance at its advertising columns will show that this fact is realized by our patrons, who are among the oldest and best of our business men, and who make their contracts for advertising like they place their insurance.

(BY THE YEAR)

There by testifying the entire faith in the permanency of the REPUBLICAN

It is now over 10 years since the

Weekly Republican

Has established, and in all those years it has never missed an issue nor been behind time in its day of publication. Its success has been

SIMPLY UNPARALLELED

and its circulation was never equalled, or even approached, by any other newspaper published in Decatur. Its circulation to-day is

More than Three Times

as large as that of either of its competitors, a fact well understood and appreciated by advertisers.

The reasons for the marked degree of success which has attended the history of the REPUBLICAN are in no sense mysterious. The aim of its publishers has ever been to furnish to their readers such a newspaper as could be safely read in the family circle; a newspaper bearing upon its pages the news of the day in a form as attractive as was possible to maintain, a paper that should be the organ of no party, clique, or cabal. In short, a newspaper. They have not fallen into the too common error of imagining that the world was suffering and starving to learn their opinions, nor have they attempted to arrogate to themselves the leadership of every movement that engaged the attention of the public for the time being. Neither have they attempted, during political campaigns, to control the action of conventions, or to dictate the nomination of candidates. In a word, they have honestly endeavored to make the REPUBLICAN an impartial observer and recorder of passing events. The fact that the people have so emphatically endorsed this line of policy is the strongest argument that could be offered for its continuance.
